Title: TECHNIQUES TO ADAPTIVELY CONTROL FLOW THRESHOLDS

IN THE ABSTRACT OF THE DISCLOSURE

Please amend the Abstract as follows:

Briefly, techniques to adaptively control flow thresholds. In an embodiment, a storage threshold capacity of a storage device may be set based on at least one network parameter and at least one host interface parameter. A request to stop transmission of traffic to the storage device may be sent based on the storage device exceeding the storage threshold capacity. Other embodiments are also disclosed.
